

COMPOSITE REINFORCED STRIP

INDEX

- 1. Registry code
- 2. Description
- 3. Use
- 4. Technical specification

1. REGISTRY CODE

| Code | Description | Measures | Weight | Color | Pkg. / Pallet |
|------------|--|----------------|--------|-------|---------------|
| TER23-5096 | Composite reinforced strip for internal and external corners | 60 mm x 30,5 m | 1,3 kg | White | 1 pc. / - |

MATERIAL Paper and composite

2. DESCRIPTION

Pre-folded and reinforced technical tape for joints, replaces the corner profile and makes external and internal corners perfectly straight and is four times more resistant than reinforced tape. It also makes the corner waterproof, thus preventing rusting.

3. USE

Used to create corners and arches in plasterboard structures
