## 2. DESCRIPTION

- Plastic profile for flood-resistant horizontal movement joints in ETICS systems, e.B. additional floors or similar.
- Prevents damage caused by crushed joints
  - Provides a clean finish
  - Avoids the use of any additional adhesive tape
  - Driving is rain-proof
  - The maintenance-free joint
  - Maintains a permanent hold thanks to the circumferential adhesive tape
- Kit consisting of 12.5 m of profile (5 bars) and 13 m of joint sealing tape (2 rolls).

## 3. USE

The movement joint profile is installed in the joint area between two rows of panels. The aim is to minimise the effects of different construction properties.
