# DRAINING TILE AND ACCESSORIES

## 2. DESCRIPTION

Draining garden tile in PP, green, red and gray color. Modular interlocking elements, measures 400 x 400 x 18 mm. Its accessories allow the perfectly functional laying of draining tiles and realize the aesthetic completeness.

## 3. USE

Ramps and corners can be matched together and the very easy locking system guarantee a quick positioning and use. These products are perfect where there is a need to create a stable and removable outdoor flooring, to be used in residential areas or garden intended for garden furniture and/or recreational activities and/or walkways.

## 4. ACCESSORIES

These accessories are the perfect integration of the drainage tile in order to guarantee a perfect lateral finishing. The ramps and the corners have a modular interlocking system that is divided in 2 different type/each:

- Ramp with "female" interlocking system
- Ramp with "male" interlocking system
- Corner for with "female" interlocking system
- Corner for with "female-female" interlocking system

Ramps are sold in bags of 10 pieces/each

Both ramps and corners are made of PP (polypropylene). Ramps and corners can be matched together and the very easy locking system guarantee a quick positioning and use. These products are perfect where there is a need to create a stable and removable outdoor flooring, to be used in residential areas or garden intended for garden furniture and/or recreational activities and/or walkways.

01 Ramp with "female" hooking

02 Ramp with "male" hooking

03 Corner with "female" hooking

04 Corner with "female-female" hooking
